PEO for C3T**

**Program Executive Officer**  
**MG N. Lee S. Price**

**Mr. Bill Sverapa – Deputy PEO**

**Business Management Div**  
Ms. Veronica Ewing

**Readiness Management Div**  
Mr. Joseph Hollenbeck

**Technical Management Div**  
Ms. Jennifer Zbozny

Blue Force Tracking  
Aviation  
transitioned to  
PEO Aviation  
on October 1,  
2012

**Chief of Staff**  
Ms. Mary Woods

Includes PdMs  
Handheld,  
Manpack,  
Small Form Fit  
(HMS) and  
Network  
Systems

**MilTech Solutions**  
Military Technology  
Solutions  
Mr. Emerson Keslar

**PD TNI**  
Project Director Tactical  
Network Initialization  
Mr. Randy Young

**PD C5ISR**  
Project Director Command,  
Control, Communications,  
Computers, Combat Systems,  
Intelligence, Surveillance, and  
Reconnaissance  
Mr. Terry Claussen

**SPO**  
Special Projects Office  
Mr. Richard Costa

Disestablished  
September 30,  
2012

**PM AMF**  
Project Manager  
Airborne, Maritime,  
Fixed Station

**CAPT Nigel Nurse**

Radios enabling  
airborne and  
maritime forces

Transitioned  
from JPEO  
Joint Tactical  
Radio Systems  
(JTRS)  
September 30,  
2012

**PD COMSEC**  
Project Director  
Communications Security

**Mr. Chris Manning**

Communications  
Security

**PM JBC-P**  
Project Manager  
Joint Battle Command-  
Platform

**COL Michael Thurston**

Mission  
Command with  
Situational  
Awareness

Name Change  
from PM Force  
XXI Battle  
Command  
Brigade and  
Below  
September 24,  
2012

**PM MC**  
Project Manager  
Mission Command

**COL Jonas Vogelhut**

Mission  
Command  
Applications  
and  
Collaborative  
Tools

**PM MEP**  
Project Manager  
Mobile Electric Power

**COL Brian Cummings**

Power  
Management &  
Environmental  
Controls

Transitioned  
to PEO  
Combat  
Support &  
Combat  
Service  
Support  
October 1,  
2012

**PM MNVR**  
Project Manager  
Mid-Tier Networking  
Vehicular

**COL Gregory Fields**

Mid-tier radios  
networking the  
Brigade Combat  
Team

Transitioned  
from JPEO  
JTRS  
September 30,  
2012

**PM TR**  
Project Manager  
Tactical Radios

**COL William Wygal**

Synchronization  
of Future  
Networks and  
Tactical Radios

PM HMS  
transitioned from  
JPEO JTRS and  
merged with PdM  
Network Systems  
to establish PM  
TR  
August 13, 2012

**PM WIN-T**  
Project Manager  
Warfighter Information  
Network-Tactical

**COL Edward Swanson**

- Other Line Orgs

### Integration Evaluation (NIE) as the Army Moves Forward

#### Established initial Capability Set (CS)13 baseline

- Warfighter Information Network-Tactical Inc. 2 Risk Reduction
- Proved that the network 'works'
- Significant vehicle integration
- First industry participation

#### Limited integration facility testing prior to NIE

#### 'Start Up' completed at Fort Bliss/White Sands Missile Range

- Built the required support infrastructure
- More permanent party
- Established integrated "TRIAD" teams

#### • First Unit Equipped for CS13

- WIN-T Inc. 2 Initial Operational Test and Evaluation (IOT&E)
- Significant Vehicle Integration across Blue Force Tracking
- First 6-month NIE Cycle
- Increased industry participation

#### • Lab Testing established at APG

#### • Refinement of NIE Processes

- Fixed Infrastructure Cost
- Actual costs limited to individual Systems Under Evaluation/Systems Under Test
- Fixed re-engineering costs

#### • Establishes initial CS14 Architecture

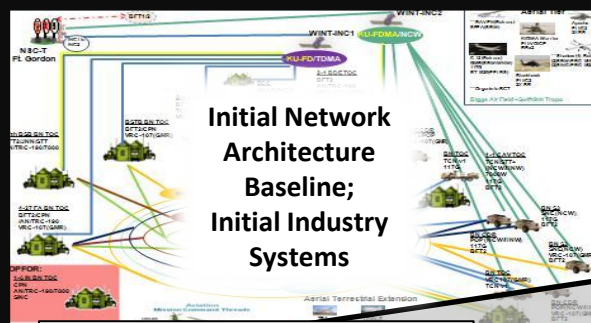

- Evaluates potential ABCT solutions
- Builds the intelligence, surveillance and reconnaissance baseline for NIE 13.2
- Continues Ops-Intel Convergence
- Nett Warrior/ Joint Battle Command-Platform IOT&E

#### • 100 % receive integration facility testing

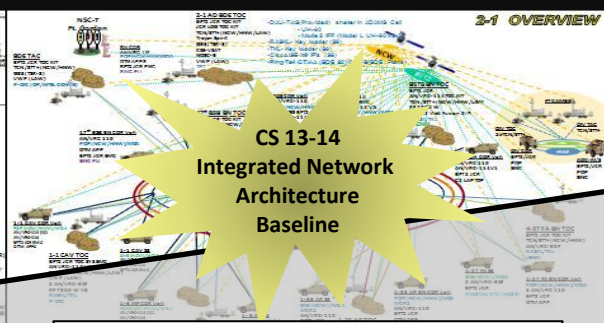

#### • Distributed evaluation site; Yuma, AZ

#### • Executing the NIE Process

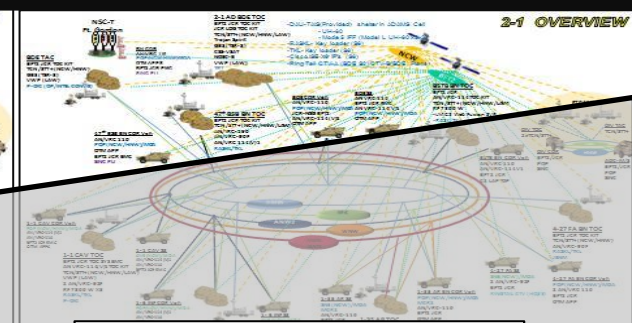

- Validates standard operating procedures
- Targeted "integration" focused on decreasing network complexity

43 Industry Solutions Submitted

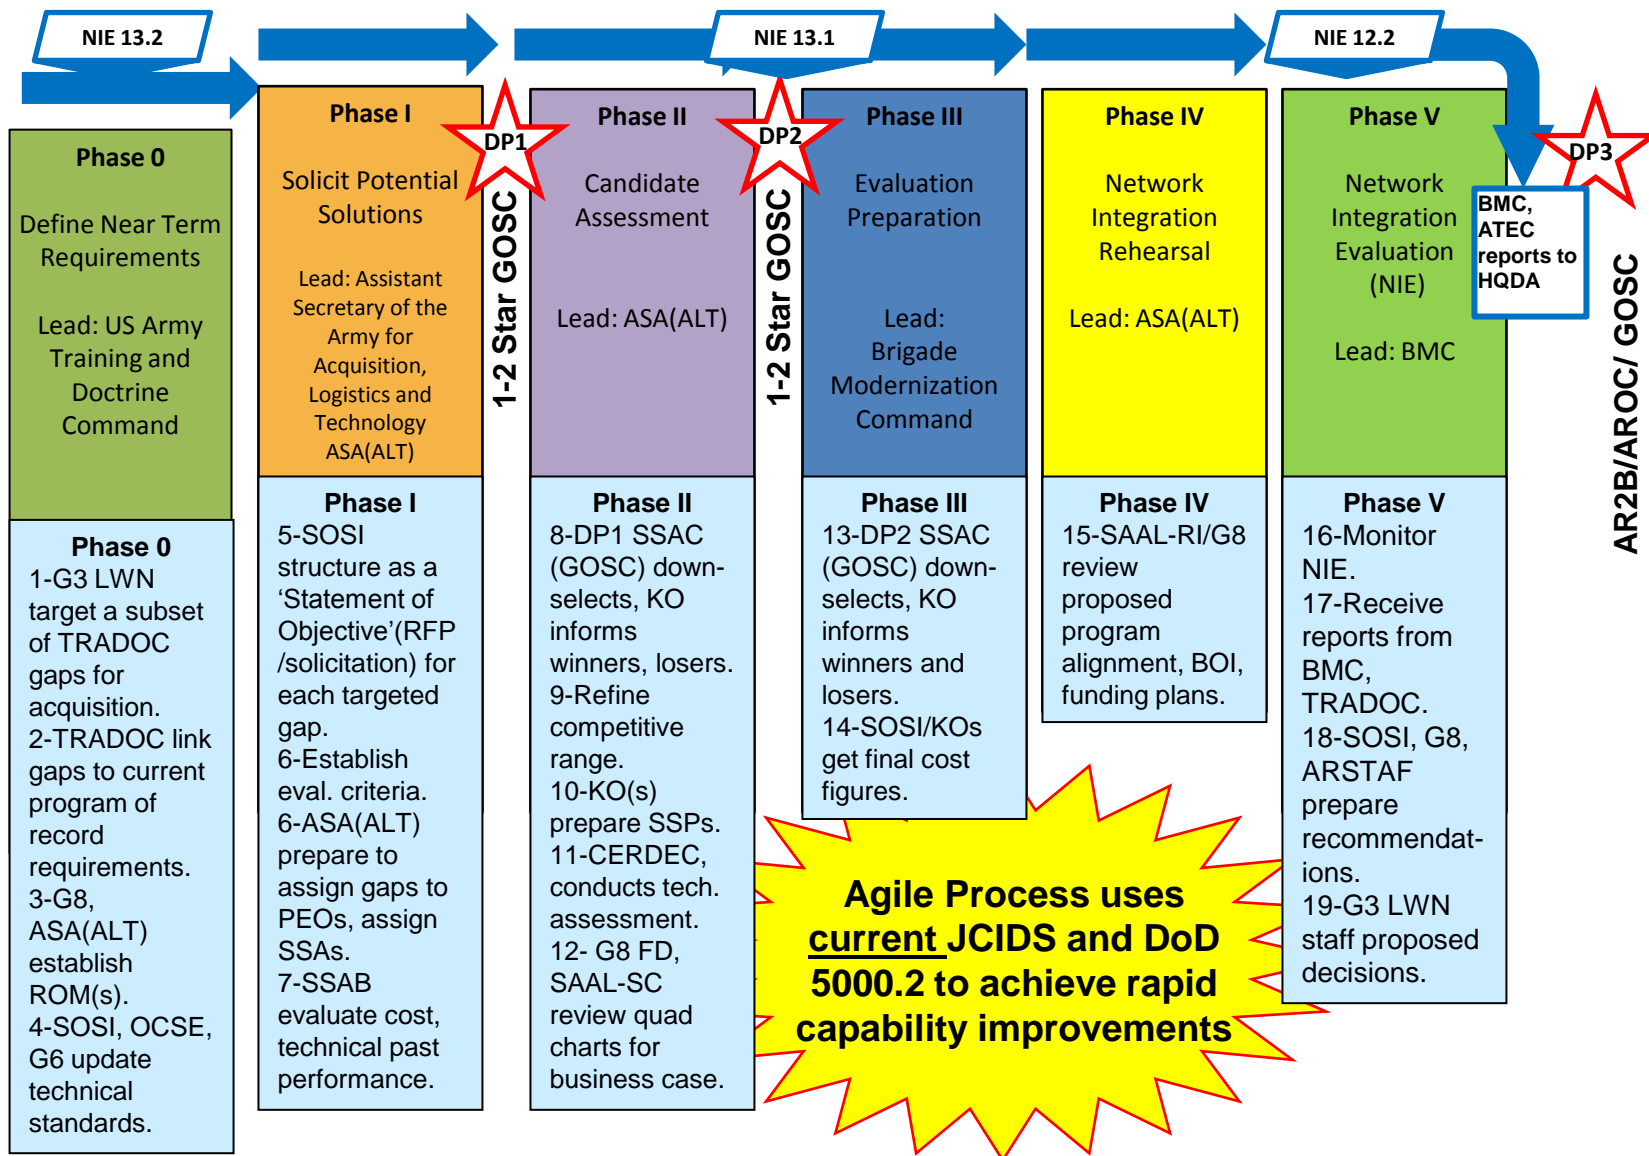

105 Industry Solutions Submitted

146 Industry Solutions Submitted

Lessons-learned from the NIE construct helped the Army avoid approximately \$6 billion in planned spending or re-allocate resources to other priorities – all while leveraging industry and providing more capability to formations sooner.

# Emerging Agile Process for Acquisition

# NIE 13.2 Critical Events for Industry

Whitepaper Submission 8/10/12  
Draft Training Package 8/10/12  
System Under Evaluation Technical Interchange Presentation @APG 8/22/12

DP1 Candidate Selection 9/19/12

Selected Equipment to APG 9/13/12  
(identified by oversight committee, confirmed by DP1)

DP2 Final Selection 1 to N list 10/31/12

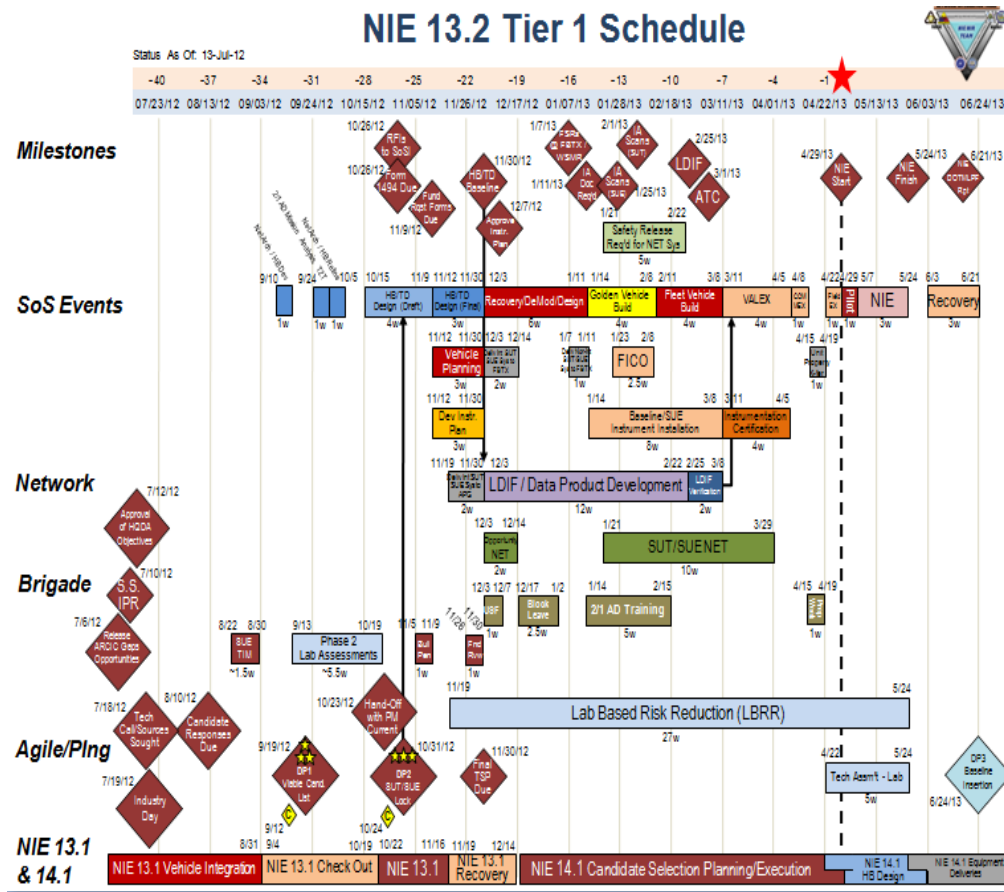

Face to Face Meeting (bullpen) @FBTX 11/5/12  
(requests for info. and response deadline are sent with invite)

All Networked Equipment to APG 11/19/12  
(delivery and lab procedures are sent with invite)

All Integrated Network Equipment to FBTX 12/3/12

All Non-Integrated Equipment to FBTX 1/7/12

FSR Support to FBTX 1/14/13 to 5/24/13

For your system to succeed in the NIE...

...Responding to critical dates is a must

# Deployed Mission Command: *The Army's Objective Endstate*

## Mission Command Capabilities

- C2 On-the-Move
- Display & share relevant tactical info
- JIIM interoperability
- Standard & shareable geospatial foundation
- Enable Multi-form Collaboration
- Create, communicate & rehearse orders
- Execute running estimates
- Training Support

## Enabling Network Capabilities

- Robust Network Transport
- Execute Tactical Network Operations

**WIN-T** is a high-speed and high-capacity backbone communications network, which provides command centers and staff elements with the capabilities to link to adjacent, subordinate, sustaining base, joint, allied, and coalition forces.

**JBC-P** – is the successor to FBCB2 that provides upgraded situational awareness, command and control, and applications

**ANW2** – Adaptive Networking Wideband Waveform supports larger bandwidth, voice and data bridge above and below battalion

**WNW** – Wideband Networking Waveform supports larger bandwidth, voice and data bridging above and below battalion.

**SRW** – Soldier Radio Waveform, smaller bandwidth hand-held and man-pack for voice and data at company and below.

**RR** – Rifleman Radio is a single channel hand-held radio using SRW to provide voice and data to soldiers.

## Existing Systems

## NEW CS 13 Systems

Warfighter Information Network-Tactical (WIN-T)  
Inc. 2 Point of Presence

Blue Force Tracking 2

Soldier Radio Waveform Radio

Bridge  
117G

Replace  
New WNW Radio

JBC-P-BFT2

**Targeted Modernization**

### Capability Set 13

WIN-T Inc. 2 Soldier Network Ext. (Command and Control On-the-Move)

Joint Battle Command-Platform (JBC-P)/Blue Force Tracking (BFT) 2

AN/PRC-117G (in lieu of Ground Mobile Radio, bridge only)

Handheld, Manpack, Small Form Fit radio

AN/VRC 104(V)1

**Key:**  
 Current Systems/Capabilities  
 CS 13/14 System/Capabilities

### New Modernization Approach:

Individual system / components targeted for modernization

- VS. -

Complete replacement / re-integration by platform

# Warfighter Information Network-Tactical Increments

**2020 - 2045**  
**Protected Comms OTM and ATH**

**2004 - 2025**  
**Urgently Fielded to OEF/OIF**  
**Military/Commercial SATCOM ATH**  
**Provides Wideband Connectivity - Bn to Div**  
**Enables Asymmetric Warfare**  
**Fields to Corps, BfSB, MEB, Sustainment Bdes, and ESB**

## Acronyms

ATH – At the Halt  
BCT – Brigade Combat Team  
Bde - Brigade  
Bn – Battalion  
BW – Bandwidth  
Co - Company  
Div - Division  
LOS – Line of Sight  
MEB – Maneuver Enhancement Brigade  
NetOps – Network Operations  
O&O - Operational and Organizational  
OEF – Operation Enduring Freedom  
OIF – Operation Iraqi Freedom  
OTM – On the Move  
SATCOM – Satellite Communication  
WF - Waveform

**2015 – 2024\***  
**Provides Full Networking OTM**  
**Greater robust connectivity with Increased network access**  
**Via air tier, higher BW SATCOM, and LOS WFs**  
**Fully integrated NetOps**  
**Fields to Div, BCTs, Support Bdes, and Div to Co**

**2010 – 2018\***  
**Accelerates WIN-T Mature Technologies by 4 years**  
**Initial OTM SATCOM and LOS**  
**Commercial modems and radios leveraging objective NCW and HNW waveforms**  
**Mobile Infrastructure enables OTM data sync and voice calls down to Co**  
**Reduces O&O through advanced NetOps, self-forming and self-healing networks**  
**Fields to BCTs and Div**

\* Indicates first procurement year through last year fielded.

## Evolution to Joint Battle Command-Platform

### MTS/FBCB2 6.4/6.5

Fielded Systems 40K-80K

#### Capabilities

- Terrestrial & low bandwidth (BW) SATCOM
- Limited command and control (C2) & full situational awareness (SA)
- Lacks joint C2/SA interoperability
- Blue Force Tracking (BFT) network latency = inaccurate blue position location information (PLI) for movers
- UNCLAS (CUI) BFT network
- Lacks C2/SA interoperability with Movement Tracking System (MTS) and (former) Land Warrior (LW)
- Fixed, a prior database
- Non-standard tactical mapping tool kit map engine/tool kit

CS 9-10

### JCR

80K-100K

#### Capabilities

- Terrestrial & low BW SATCOM
- Limited C2 & full SA
- Initial C2/SA interoperability with Marine Corps & Joint Tactical COP Workstation
- C2/SA interoperability with MTS and LW
- Database simplification and reduced data products
- Initial Commercial Joint Mapping Tool Kit implementation
- BFT 2 network (Type 1) = significant improvement over BFT 1 in speed of PLI reports
- Tactical Ground Reporting co-host

CS 11-12

### JBC-P

100K-150K

Baseline  
for MCE

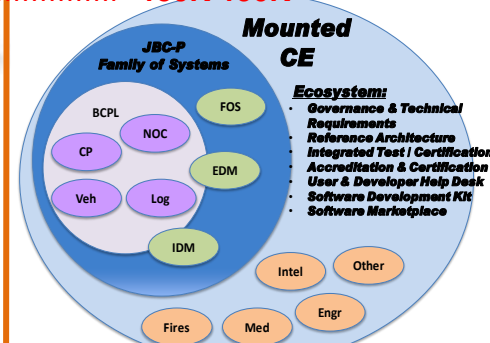

#### Capabilities

- Hybrid Network
- Joint Battle Command-Platform (JBC-P) software products:
  - Vehicle
  - Network Operations Center software
  - Handheld software
  - Integrated Tactical Ground Reporting
  - Collaboration tools
  - New user interface
- Beacon
- Vehicle tablet (full function computer)
- Faster map engine

CS 13-14

### Mounted CE

150K-190K

FBCB2 - JCR - JBC-P  
- MCE -

Leveraging Previous  
Investments and Providing  
Affordable & Interoperable  
Brigade and Below C2/SA  
Capability for the Joint Force

#### Capabilities

- JBC-P as core C2/SA application on mounted CE
- Rapid development of new capability
- Enhanced interoperability
- Hybrid network to tactical edge
- Advanced common hardware
- Platform cross domain
- Enhanced security & info. assurance
- Increased competition
- Cost avoidance

CS 15-16 & Beyond

# What is Command Post of the Future (CPOF)? Primary C2 System for the Army

*Commander & staff collaborative decision-making, planning, and common operating picture (COP) tool*

**CPOF: a decision support system, providing situational awareness and collaborative tools for tactical decision making, planning, rehearsal and execution management from corps to company level.**

# Enhancing Our Processes

## Targets Reached

- Met our FY12 targets for Value Engineering (VE) and Lean Six Sigma (LSS)
- Realized more than \$169 million in cost reductions (savings and avoidance) from FY12-18

## Key Projects

- Improved process lead time for Data Products delivery from 10 to 9 weeks, generating a cost savings of \$12.5 million for FY12-18
- Reduced Network Operations reset total process time from 39 days to less than one hour, generating a cost savings of \$9.8 million for FY 12-18
- Revised NetFlow data collection process, decreasing bandwidth consumption and generating a cost savings of \$312,000 for FY12-18
- Improved Cryptographic equipment procurement and fielding process, generating a cost avoidance of \$41.7 million for FY12-18.
- Army Key Management System requirements review resulting in the spread of purchasing throughout the life cycle rather than performing procurements at one time. Cost savings and calculations of unfunded requirements from FY12-14 would be \$42.2 million.

# Partnership with Industry

## Standards

- Expect to provide our standards to industry for radio ware routing technologies to increase our plug-and-play capabilities in about six months
- Developing Network Operations standards to tell our industry partners how their NetOps applications should interact with the network

## Success Through Synchronization

- Goal with industry is to have a functioning system-of-systems network capability for Soldiers
- Forged a successful partnership: government has effectively laid out our requirements and industry has modified its capabilities to meet them

## PD COMSEC

### Key Management (KM) Science, Engineering and Technical Assistance (SETA) Support

- Brief Description: Business, logistics, fielding, training, program management, technical and engineering support services for Project Director, Communications Security (PD COMSEC)
- Contract Type: Cost Plus Fixed Fee (CPFF) Task Order: Rapid Response (R2-3G) contract
- Number of Years: 1-year base, plus 1 or 2 option years
- Estimated Value : \$17- \$21million
- Estimated RFP Date: 1<sup>st</sup> Qtr, FY 2013
- Estimated Award Date: 3<sup>rd</sup> Qtr, FY 2013
- Technical POC (Name/Phone): Kevin J. Walsh / (443) 395-2634
- Considering Small Business Set-Aside?: No

## PD COMSEC

### Army Key Management System/Army Key Management Infrastructure Post Deployment Software Support/(PDSS)Post Production Software Support (PPSS)

- Brief Description: Software, engineering and logistic support for COMSEC encryption devices
- Contract Type: Cost Plus Fixed Fee (CPFF) Task Order: Rapid Response (R2-3G) contract
- Number of Years: 1-year base, plus 1 or 2 option years
- Estimated Value: \$17- \$20 million
- Estimated RFP Date: November 2012
- Estimated Award Date: March 2013
- POC: PEO C3T Technical Interchange Liaison Office
- Considering Small Business Set-Aside?: No

This information is subject to change and is provided for non-binding informational purposes only. The government will be bound ONLY by the provisions contained in the final version of the solicitation, not any information provided herein.

## **PM Mission Command**

Mission Command Workstation (MCW) competitive

- Brief Description: Development, testing and other engineering support for tasks required to maintain compatibility between fielded releases of Command Post of the Future software and changing government standards.
- Contract Type: Cost plus fixed fee IDIQ , single award
- Number of Years: Five-year base
- Estimated Value: \$180 – 200 million
- RFP Number: W15P7T-13-R-MCWS
- Estimated RFP Date: 2<sup>nd</sup> Qtr, FY 2013
- Estimated Award Date: 1<sup>st</sup> Qtr, FY14
- Technical POC (Name/Phone): Paul Stoskus/ (443) 395-2541
- ACC POC (Name/Phone): Kirsten Leonard / (443) 861-4954
- Considering Small Business Set-Aside?: yes

## **PM WIN-T**

Warfighter Information Network-Tactical (WIN-T) Increment 1 (INC 1) Performance Based Logistics Supply Effort

- Brief Description: WIN-T Inc. 1 is a state-of the-art Commercial-Off-the-Shelf (COTS)/ Government-Off-the-Shelf (GOTS) communications network that enables the exchange of voice, video, and data throughout the tactical Army unit and into the sustaining base. The Product Manager Increment 1 (PdM Inc. 1), and the Communications-Electronics Command (CECOM) Logistics Readiness Center (LRC) have a requirement to provide sustainment support for all previously acquired WIN-T Inc. 1 systems equipment, and network management tools.
- Contract Type: Firm-Fixed Price IDIQ
- Number of Years: Five year base only
- Estimated Value: \$70- \$100 million
- RFP Number: W15P7T-13-R-0001
- Estimated RFP Date: 2<sup>nd</sup> Qtr FY2013
- Estimated Award Date: 4<sup>th</sup> Qtr FY2013
- Technical POC (Name/Phone): Caroline McCarthy/ 443-395-8321
- ACC POC (Name/Phone): JoAnn Mazza / (443) 655-1363
- Considering Small Business Set-Aside?: No

This information is subject to change and is provided for non-binding informational purposes only. The government will be bound ONLY by the provisions contained in the final version of the solicitation, not any information provided herein.

## PD TNI

### Initialization Production and Support Services (IPSS)

- *Brief Description:* The IPSS requirements consist of initialization data development, production, and maintenance and support services which include the requisite engineering, configuration management, quality assurance, test, program management, and other services, as required.
- Contract Type: Cost plus incentive fee
- Number of Years: 1-year base, plus three, 1-year options
- Estimated Value: \$40 million
- RFP Number: W15P7T-12-R-0030
- Estimated RFP Date: 2<sup>nd</sup> Qtr, FY 2013
- Estimated Award Date: 3<sup>rd</sup> Qtr, FY 2013
- Technical POC (Name/Phone): Lisa Gremminger / (443) 395-2277
- ACC POC (Name/Phone): Ron Hughes / (443) 861-4934

This information is subject to change and is provided for non-binding informational purposes only. The government will be bound ONLY by the provisions contained in the final version of the solicitation, not any information provided herein.

## PM JBC-P

### Satellite Services

- Brief Description: Provide continued operation of the L-band communications aspects of the Force XXI Battle Command Brigade and Below (FBCB2)/Joint Battle Command-Platform (JBC-P) systems. Provide Very Small Aperture Terminal (VSAT) satellite and Internet connectivity services required to operate the FBCB2/JBC-P networks.
- Contract Type: Firm Fixed Price Task Order (DISA/DITCO)
- Number of Years: 1-year base, plus four, 1-year options
- Estimated Value: \$400- \$450 million
- Estimated RFP Date: 1<sup>st</sup> Qtr, FY 2013
- Estimated Award Date: 3<sup>rd</sup> Qtr, FY 2013
- ACC POC (Name/Phone): (DISA/DITCO) Vanessa McCollum / (618) 229-9776
- Considering Small Business Set-Aside?: No

## PdM NS

### SRW Radio System

- Brief Description: NDI procurement of near-term operational networking radios, which have at least the Soldier Radio Waveform capability.
- Contract Type: Firm-Fixed Price IDIQ
- Number of Years: 5-year base, plus five, 1-year options
- Estimated Value: \$800 - \$900 million
- RFP Number: W15P7T-12-R-0059
- Estimated RFP Date: 1<sup>st</sup> Qtr, FY 2013
- Estimated Award Date: 3<sup>rd</sup> Qtr, FY 2013
- ACC POC (Name/Phone): David Hackett / (443) 395-1041
- Considering Small Business Set-Aside?: no

This information is subject to change and is provided for non-binding informational purposes only. The government will be bound ONLY by the provisions contained in the final version of the solicitation, not any information provided herein.

## PdM NS

### Systems Engineering and Technical Assistance (SETA ) Support

- Brief Description: Provide SETA Contractor Support Services to PM Tactical Radios Product Management Offices.
- Contract Type: Cost Plus Fixed Fee Task order, GSA Schedule
- Number of Years: 1-year base, plus four, 1-Year Options
- Estimated Value: \$200 - \$250 million
- Estimated RFP Date: 1<sup>st</sup> Qtr, FY 2013
- Estimated Award Date: 2<sup>nd</sup> Qtr, FY 2013
- POC: PEO C3T Technical Industrial Liaison Office
- Considering Small Business Set-Aside?: TBD

## PdM NS

### CREW-Radio Mitigation Hardware

Brief Description: Need to procure mitigation hardware for CREW-radio compatibility for any radio that will operate in theater for Capability Set14/15. This will include three devices (EW, UHF, L-Band) . The contract would be for reduced sized mitigation hardware as compared to the CS13 hardware. Waveforms associated to Line of Sight (LOS) operations (SRW, ANW2, WNW).

- Contract Type: Firm Fixed Price
- Number of Years: 2-year base, plus two, 1-year options
- Estimated Value: \$90 - \$110 million
- Estimated RFP Date: 2<sup>nd</sup> Qtr, FY 2013
- Estimated Award Date: 4<sup>th</sup> Qtr, FY 2013
- Technical POC (Name/Phone): Paul Hancik / (443) 395-1041
- Considering Small Business Set-Aside?: yes

This information is subject to change and is provided for non-binding informational purposes only. The government will be bound ONLY by the provisions contained in the final version of the solicitation, not any information provided herein.

## **HQ, PEO C3T**

Systems Engineering, integration, operations and readiness support

- **Brief Description:** Systems of systems engineering and integration, network engineering, architecture development, interoperability engineering, information assurance, technology transition/insertion, testing, fielding and training.
- Contract Type: Firm Fixed Price (FFP)/Cost Plus Fixed Fee (CPFF) Task Order, R2-G3 Contract
- Number of Years: 1-Year base, plus 2-option years
- Estimated Value: \$175- \$210 million
- Estimated RFP Date: 1<sup>st</sup> Qtr, FY2013
- Estimated Award Date: 2<sup>nd</sup> Qtr, FY2013
- ACC POC (Name/Phone): Sharon Peterson / (443) 861-5001
- Considering Small Business Set-Aside?: No

This information is subject to change and is provided for non-binding informational purposes only. The government will be bound ONLY by the provisions contained in the final version of the solicitation, not any information provided herein.

***First Ever “Team” Aberdeen Proving Ground (APG)  
Advance Planning Brief for Industry (APBI)  
December 4-6, 2012***

- Will include presentations from the Research, Development and Engineering Command (RDECOM), Army Test and Evaluation Command (ATEC), Joint Program Executive Office for Chemical and Biological Defense and members of the C4ISR Center of Excellence
- Registration and briefings will be held at the APG Post Theater, with other events in nearby locations
- A full agenda with specific times and locations will be released to the public in the near future
- Check the C4ISR Web site and those of its partners for more emerging details

# ***Opportunities for Industry After FY13***

## **PD COMSEC**

- 1. Title of Effort: Key Management (KM) Simple Key Loader Production and Repair
- 2. Brief Description: Follow on effort to W15P7T-12-D-0019 SKL Production and Repair IDIQ contract
- 3. Contract Type: Cost Plus Fixed Fee (CPFF) IDIQ
- 4. Number of Years: 1-Year Base and Four 1-Year Options
- 5. Estimated Value: \$100 - \$125 Million
- 6. RFP Number: TBD
- 7. Estimated RFP Date: TBD
- 8. Estimated Award Date: FY 2017
- 9. Technical POC (Name/Phone): Kevin J. Walsh / (443) 395-2634
- 10. ACC POC (Name/Phone): TBD
- 11. Considering Small Business Set-Aside?: TBD

## **PM Mission Command**

- 1. Title of Effort: Program Manager Mission Command Consolidated Field Support Representatives
- 2. Brief Description: To provide Field Service Support for all Mission Command Products
- 3. Contract Type: Cost Plus Fixed Fee. IDIQ, Single Award
- 4. Number of Years: 3-Year Base plus 6-Month Option
- 5. Estimated Value: \$200- \$230 Million
- 6. RFP Number: TBD
- 7. Estimated RFP Date: 2<sup>nd</sup> Qtr FY 2013
- 8. Estimated Award Date: 2<sup>nd</sup> Qtr FY 2014
- 9. Technical POC (Name/Phone): Johnnie Crowder/ (443) 395-2396
- 10. ACC POC (Name/Phone): John Favara/ (443) 861-4964
- 11. Considering Small Business Set-Aside?: YES

## **PM Mission Command**

- 1. Title of Effort: AFATDS Inc II
- 2. Brief Description: Development and Fielding of AFATDS v6.9 and 7.0
- 3. Contract Type: Cost Plus Fixed Fee
- 4. Number of Years : 3-Year Base Plus Two 1-Year Options
- 5. Estimated Value: \$100 - 117 Million
- 6. RFP Number: TBD
- 7. Estimated RFP Date: 2<sup>nd</sup> Qtr FY 2014
- 8. Estimated Award Date: 2<sup>nd</sup> Qtr FY 2015
- 9. Technical POC (Name/Phone): Cynthia Inteso/ (256) 774-6790
- 10. ACC POC (Name/Phone): TBD
- 11. Considering Small Business Set-Aside?: TBD

## **PM WIN-T**

- 1. Title of Effort: Integrated Programmatic Support SETA Services
- 2. Brief Description: Programmatic Support to All PM WIN-T Programs Systems/Equipment Located at Aberdeen Proving Ground, Maryland; Includes Program and Business Management, Engineering, and Administrative Support. (This is a follow-on effort to the current GSA contract, GS-06F-0636/GST0210CJ0519 with Janus Research Group)
- 3. Contract Type: Cost Plus Fixed Fee (CPFF)
- 4. Number of Years: 3-Year Base Plus Two 1-Year Options
- 5. Estimated Value: \$90 - \$100 Million
- 6. RFP Number: TBD
- 7. Estimated RFP Date: 4<sup>th</sup> Qtr FY2013
- 8. Estimated Award Date: 1<sup>st</sup> Qtr FY2014
- 9. Technical POC (Name/Phone): John Westgate/ (443) 395-7048
- 10. ACC POC (Name/Phone): TBD.
- 11. Considering Small Business Set-Aside?: TBD

## **PM WIN-T**

- **1. Title of Effort: Integrated Logistics Support Systems, Engineering and Technical Assistance Support (SETA )Services**
- **2. Brief Description: Integrated Logistics Support to All PM WIN-T Programs Systems/Equipment; Includes Fielding, Training, Maintenance and Program Planning. (This is a follow-on effort to the current GSA contract, GS-10F-0008V/GST0210CJ0518, awarded to ESP).**
- **3. Contract Type: Cost Plus Fixed Fee (CPFF)**
- **4. Number of Years: 3-Year Base Plus Two 1-Year Options**
- **5. Estimated Value: \$70 - 80 Million**
- **6. RFP Number: TBD**
- **7. Estimated RFP Date: 4<sup>th</sup> Qtr FY2013**
- **8. Estimated Award Date: 1<sup>st</sup> Qtr FY2014**
- **9. Technical POC (Name/Phone): John Westgate/(443) 395-7048**
- **10. ACC POC (Name/Phone): TBD**
- **11. Considering Small Business Set-Aside?: TBD**

## **PM WIN-T**

- 1. Title of Effort: PM WIN-T Systems Engineering Support SETA Services
- 2. Brief Description: System Engineering services in support of PM WIN-T Programs Systems/Equipment; Includes Engineering Analysis, Test and Evaluation, Quality Assurance, Modeling and Simulation. (Work is currently being performed under the GSA Alliant GWAC, contract GS00Q09BGD0019/GST0212CJ0011, awarded to Booz Allen Hamilton.)
- 3. Contract Type: Cost Plus Fixed Fee (CPFF)
- 4. Number of Years: 3-Year Base Plus Two 1-Year Options
- 5. Estimated Value: \$30- \$50 Million
- 6. RFP Number: TBD
- 7. Estimated RFP Date: 2<sup>nd</sup> Qtr FY2015
- 8. Estimated Award Date: 3<sup>rd</sup> Qtr FY2015
- 9. Technical POC (Name/Phone): John Westgate /(443) 395-7048
- 10. ACC POC (Name/Phone): TBD
- 11. Considering Small Business Set-Aside?: TBD

## **PM JBC-P**

- 1. Title of Effort: Global Services Capability Sets 13-14, 15-16 and 17-18
